Fast running actuators for air dampers

GNP19...

Fast runner rotary version with electronic fail-safe function, AC/DC 24 V

Electronic rotary actuator for 2-position, 3-position, or modulating control, nominal torque 6 Nm, at 2 s running time, with electronic fail-safe function; self-centering shaft adapter, range mechanically adjustable between 0...90°, prewired with 0.9 m long standard connection cables.

GNP196.1E with adjustable auxiliary switches for auxiliary functions.

Use

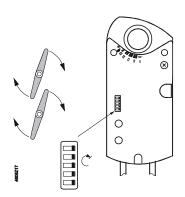

- For damper areas up to 1 m², friction dependent.
- For laboratory fume hoods, etc.
- Suitable for use with continuous, 2-position, or 3-position controllers.

Types	Power	Auxiliary switch	Torque	Damper size	Runtime
GNP191.1E	10/20041/	No		Ca. 1 m ²	2 s
GNP196.1E	AC/DC 24 V	Yes	6 Nm		

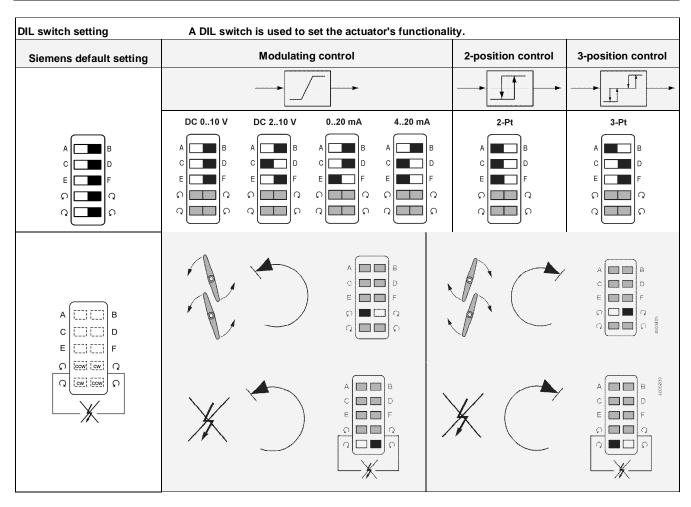

Factory setting

The actuators preset at the factory to:

- 0... 10 V
- Clockwise rotary movement
- Counter-clockwise fail-safe movement

Functions

Position indication: Mechanical	Rotary angle position.		
Position indication: Electric.	Output voltage U = DC 010 V is generated proportional to rotary angle. U depends on the DIL switch's rotary direction position.		
Rotary angle limitation	The rotary angle of the shaft adapter can be limited mechanically to 5° increments.		
GNP196.1F auxiliary switch	The switching points for auxiliary switches A and B can be set mutually independent in 5° increments from 0 to 90°.		

Ordering

spare parts

Delivery Individual parts such as shaft adapter with position indication and other mounting

materials for the actuator are delivered unassembled.

Accessories, Various accessories are available to extend the actuators' functionality; e.g.

rotary/linear mounting kit, external auxiliary switch (1 or 2 switches) and weather shield;

see data sheet N4697.

Technical data

1 24 VAC/VDC supply	Operating voltage / Frequer	ncy	AC/DC 24 V ± 20 % / 50/60 Hz
• • •	Power consumption:	Actuator running	20 VA / 13 W

²⁾ The product environmental declarations contains data on environmentally compatible product design and assessments (RoHS compliance, materials composition, packaging, environmental benefit, disposal).

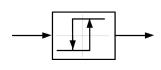

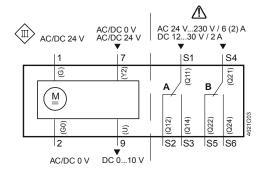

The device is considered an electronics device for disposal in terms of European Directive 2012/19/EU and may not be disposed of as domestic garbage.

- Dispose of the device through channels provided for this purpose.
- Comply with all local and currently applicable laws and regulations.
