

Husky 150

Automatic Air Conditioning Service Station
for R134a Refrigerant

COMPARATIVE TABLE

	HUSKY 150
Part number	8PS 179 500-201
Suitable for cars & trucks AC systems	R134a
For electric and hybrid vehicles	Yes
Refrigerant analysis function	–
With high-precision filling system	–
Leak test function with inert gas	Option
Temperature range	10 °C to 50 °C
Recovery rate	95%
Recharging precision	± 15 g at 10 °C to 50 °C
Resolution oil / UV	± 1 g
Tank capacity	10 kg
Tank heating	Quick and automatic with POWER BOOST & MULTIPASS recycling
Compressor	Type for recovery 9cc 400 g/min at 50 Hz 0 °C
Vacuum pump	Car evacuation in 20 minutes
Service hoses	3,0 m SAE J2196
Oil drain, PAG and POE oil capacity	Oil drain 500 ml, PAG & POE 250 ml
UV capacity	250 ml
Display control	4.3" colour TFT display, embedded electronic
Printer	Option, ticket 24 columns
Interfaces	USB RS232
Temperature sensor	Option 5 m
Languages	26 languages, including Chinese
Mains voltage	230 V 50/60 Hz
Size/weight	1130 x 610 x 750 mm 95 kg
Performances	Reflects SAE J2788
Conforms to the German automaker's requirement specification	–
Certification/safety	CE TÜV Nord
Origin	Developed and produced in Germany

Subject to technical changes and errors.
